PROFESSIONAL SUMMARY

Senior Site Reliability Engineer & Infrastructure Architect with 15+ years of experience specializing in **Observability**, fleet-scale automation, and high-availability SaaS environments. Expert at leveraging modern monitoring stacks (Datadog, OpenTelemetry) and Infrastructure as Code (Terraform) to drive production stability for high-volume digital platforms. Proven track record of reducing Mean Time to Detect (MTTD) through custom automation and proactive performance engineering.

CORE COMPETENCIES

WORK EXPERIENCE

Cloudamize Inc an Atos Company 10/2021 - 05/2025

Senior Systems Architect (Technical Account Manager)

- Cloud Observability:** Provided expertise on software setup and network architecture to lead enterprise-scale cloud migration assessments, optimizing infrastructure for AWS/Azure environments.
- Performance Analysis:** Delivered technical support that improved customer understanding of cloud footprint translation, utilizing automated tools for TCO and resource optimization.
- Process Leadership:** Enhanced internal processing workflows for global partners, improving documentation and automation standards for enterprise-grade deployments.

Rackspace Managed Hosting 10/2013 - 10/2021

Senior SRE & Observability Engineer (Customer Success Engineer)

- Fleet-Scale Monitoring:** Utilized Rackspace CORE API and advanced scripting to build custom monitoring probes and automated health checks across 100+ enterprise customer clusters.
- Production Stability:** Audited production environments to implement best practices for performance and security compliance (NIST, PCI, HIPAA), ensuring zero-downtime for premium accounts.
- Incident Coordinator:** Led Tier 3 technical recovery and root-cause analysis for major outages, extracting architectural lessons to drive long-term system reliability.
- Infrastructure as Code:** Partnered with engineering teams to design and implement lifecycle improvements, utilizing automation to reduce operational overhead by 30%.

Rackspace Managed Hosting

Senior Systems Engineer (Dedicated Admin III)

- Enterprise Infrastructure:** Managed technical support for mission-critical Windows/AD stacks, serving as the SME for high-value enterprise customer bases.
- Optimization:** Proposed and implemented system enhancements that significantly improved the reliability and performance of dedicated customer environments.

Rackspace Managed Hosting

Systems Administrator I

- Orchestration:** Developed custom alerting rules and automated information gathering processes to enhance monitoring capabilities for enterprise clusters.

Christus Health Systems 07/2012 - 10/2013

NOC Incident Coordinator

- Outage Management:** Coordinated major incident responses for enterprise-wide outages, managing technical team communication and rapid service restoration.

Medina Valley ISD

02/2009 - 06/2012

Systems & Network Technician

- Administered Cisco CallManager and Unity systems; managed district-wide hardware and software infrastructure.

Tom Green County

03/2006 - 01/2009

Desktop Support Technician

- Provided comprehensive support and preventive maintenance for county-wide systems, ensuring 95% first-contact resolution.

Angelo State University

05/2004 - 03/2006

Desktop Support Technician

- Maintained campus-wide desktop systems, diagnosing and resolving complex hardware, software, and network issues.

KEY PROJECTS

EDUCATION

Bachelor of Business Administration in MIS

Angelo State University

CERTIFICATIONS

TECHNICAL SKILLS

SRE & Observability: ** Datadog, OpenTelemetry, Prometheus, Site Reliability Engineering, Performance Monitoring, MTTD/MTTR Optimization.

Infrastructure: ** Kubernetes (EKS), Terraform, AWS, Azure, GCP, High-Availability Architecture, Enterprise Systems (Windows, AD, SQL Server).

Automation: ** Go, Python, PowerShell, API Orchestration, Infrastructure as Code.

Operations: ** Incident Management (STAR), Tier 3 Support, Root Cause Analysis, GTM Strategy.
