PROFESSIONAL SUMMARY

Senior Site Reliability Engineer & Mission-Critical Infrastructure Leader with 15+ years of experience in high-stakes technical operations, public safety systems, and Tier 3 technical sustainment. Specialist in **Incident Coordination** and end-to-end system reliability, with a proven track record of maintaining zero-downtime environments for enterprise healthcare and global hosting providers. Expert at leveraging automation and Infrastructure as Code to ensure the stability of life-saving AI-native platforms.

CORE COMPETENCIES

WORK EXPERIENCE

Cloudamize Inc an Atos Company 10/2021 - 05/2025

Senior Infrastructure Advisor (Technical Account Manager)

- Reliability Architecture:** Architected complex cloud migration roadmaps for enterprise-scale workloads, ensuring mission-critical stability during transition from on-prem to AWS/Azure.
- Strategic Leadership:** Acted as a trusted technical advisor for C-suite stakeholders, delivering comprehensive technical designs and security reports to ensure 99.9% project success.
- Post-Assessment Advisory:** Guided complex technical discussions on next-phase high-availability solutions for global enterprise clients.

Rackspace Managed Hosting 10/2013 - 10/2021

Senior Systems Reliability Engineer (Customer Success Engineer)

- High-Stakes Sustainment:** Audited and reviewed production environments for 100+ enterprise customers, implementing infrastructure-as-code best practices to ensure compliance (NIST, PCI, HIPAA).
- Incident Coordinator:** Led technical recovery efforts during major service outages, managing cross-functional engineering teams and acting as the primary advisor to stakeholders under pressure.
- System Automation:** Developed advanced PowerShell automation for proactive monitoring and resource optimization, reducing manual overhead and enabling rapid incident remediation.
- Lifecycle Management:** Partnered with engineering teams to design and implement infrastructure improvements, hardening systems against emerging enterprise threats.

Rackspace Managed Hosting

Senior Systems Engineer (Dedicated Admin III)

- Enterprise Infrastructure:** Managed technical support for mission-critical Windows/AD stacks, serving as the SME for high-value enterprise customer environments.
- Root Cause Analysis:** Led the diagnosis and resolution of complex, Tier 3 infrastructure problems, ensuring alignment with strict enterprise SLAs.

Rackspace Managed Hosting

Systems Administrator I

- Fleet Orchestration:** Utilized internal APIs and scripting to automate infrastructure auditing and resource optimization for enterprise clusters.

Christus Health Systems 07/2012 - 10/2013

NOC Incident Coordinator

- Public Safety Operations:** Managed enterprise-wide incident responses for major network and application outages in a high-stakes healthcare setting, ensuring rapid service restoration.
- Systems Monitoring:** Monitored global enterprise network operations, coordinating with architecture teams for backup remediation and disaster recovery.

Medina Valley ISD

02/2009 - 06/2012

Systems & Network Technician

- Administered district-wide hardware and software infrastructure, including Cisco network and security systems.

Tom Green County

03/2006 - 01/2009

Desktop Support Technician

- Provided comprehensive support for all county users, achieving a 95% first-contact resolution rate and improving overall system stability.

Angelo State University

05/2004 - 03/2006

Desktop Support Technician

- Diagnosed and resolved hardware, software, and network issues for university faculty and staff, ensuring optimal performance across campus workstations.

KEY PROJECTS

EDUCATION

Bachelor of Business Administration in MIS

Angelo State University

CERTIFICATIONS

TECHNICAL SKILLS

SRE & Operations: ** Incident Management (STAR/Coordinator), Infrastructure as Code (Terraform), Kubernetes, Site Reliability Engineering, Tier 3 Technical Sustainment.

Cloud & Infra: ** AWS (Networking, IAM, DNS), Azure, GCP, Enterprise Systems Administration (Windows, AD, DNS, SQL Server), High-Availability Architecture.

Automation: ** Python, PowerShell, API Integration, Custom Monitoring & Alerting. **Compliance:** ** NIST, PCI, HIPAA, HITRUST.
