PROFESSIONAL SUMMARY

Lead Infrastructure & Systems Engineer with over 15 years of experience in enterprise IT operations, high-availability architecture, and Tier 3 technical sustainment. Expert in managing complex Windows and Cloud environments, driving system reliability, and leading cross-functional teams through large-scale technical transitions. Proven track record of architecting migration strategies and delivering enterprise-grade cybersecurity solutions for Fortune 500 clients.

CORE COMPETENCIES

WORK EXPERIENCE

Cloudamize Inc an Atos Company 10/2021 - 05/2025

Senior Technical Advisor (Technical Account Manager)

- Infrastructure Design & Build:** Provided expertise on software setup, security, and network architecture to lead enterprise-scale cloud migration assessments.
- Complex Troubleshooting:** Delivered Tier 3 technical support for multi-datacenter environments, translating complex on-prem footprints into scalable AWS/Azure architectures.
- Strategic Deliverables:** Produced comprehensive technical designs, TCO analyses, and migration roadmaps utilizing Cloudamize Designer and Migration Planner.
- Leadership:** Acted as a trusted advisor for internal engineering teams and global partners, optimizing sales and delivery workflows to ensure 99.9% project success rates.

Rackspace Managed Hosting 10/2013 - 10/2021

Lead Windows Enterprise Systems Engineer (Customer Success Engineer)

- Systems Sustainment:** Audited and reviewed high-stakes enterprise environments, implementing best practices for performance, reliability, and security compliance (NIST, PCI, HIPAA).
- Network & Security:** Partnered with stakeholders to design and implement lifecycle improvements, hardening infrastructure against emerging threats while ensuring zero-downtime operations.
- Automation & Scripting:** Developed advanced PowerShell automation for proactive monitoring, resource optimization, and rapid incident remediation, reducing manual overhead by 30%.
- Executive Presence:** Managed technical relationships for enterprise accounts, delivering actionable insights and architectural recommendations to C-suite stakeholders.

Rackspace Managed Hosting

Dedicated Windows Admin III (Senior Systems Engineer)

- Enterprise Infrastructure:** Planned, designed, and deployed mission-critical systems infrastructure; served as Subject Matter Expert (SME) for high-value customer environments.
- Lifecycle Management:** Proposed and implemented system enhancements that significantly improved security, performance, and reliability across the Windows/AD stack.
- Root Cause Analysis:** Led the diagnosis and resolution of complex, Tier 3 infrastructure problems, ensuring alignment with strict enterprise SLAs.

Rackspace Managed Hosting

Windows Systems Admin I

- Automation:** Utilized PowerShell and internal APIs to automate information gathering and environment audits, optimizing resource allocation for enterprise clusters.
- Technical Support:** Delivered Tier 1 and 2 support for complex OS and application issues in enterprise Windows environments.

Christus Health Systems

07/2012 - 10/2013

NOC Systems Operator (Incident Coordinator)

- ****Incident Response:**** Coordinated major incident responses for enterprise-wide network and application outages, serving as the primary Incident Coordinator.
- ****Systems Monitoring:**** Monitored global enterprise operations, ensuring rapid escalation and resolution of critical infrastructure failures.

Medina Valley ISD

02/2009 - 06/2012

Systems & Network Technician

- Administered Cisco CallManager and Unity Voicemail systems for 150+ IP phones; managed district-wide hardware and software infrastructure.

Tom Green County

03/2006 - 01/2009

Desktop Support Technician

- Provided comprehensive support and preventive maintenance for county-wide systems, ensuring 95% first-contact resolution.

KEY PROJECTS

EDUCATION

Bachelor of Business Administration in MIS

Angelo State University

CERTIFICATIONS

TECHNICAL SKILLS

Infrastructure: ** Enterprise Systems Administration (Windows, AD, DNS, SQL Server), High-Availability Architecture, Disaster Recovery, Network Design (VPN, Firewalls).

Cloud: ** AWS (Certified Associate level knowledge), Azure, GCP, Cloud Migration Strategy, TCO Analysis.

Operations: ** Tier 3 Technical Sustainment, Incident Management (STAR/Incident Coordinator), Lifecycle Management, PowerShell Automation, DevOps Principles.

Compliance: ** NIST, PCI, HIPAA, HITRUST.
