PROFESSIONAL SUMMARY

Senior Site Reliability Engineer with 15+ years of experience in hybrid infrastructure architecture, high-performance computing, and Tier 3 technical sustainment. Expert in managing large-scale Windows and Cloud environments, driving system reliability for mission-critical AI workloads. Proven track record of leveraging Infrastructure as Code (Terraform) and fleet-scale automation to ensure zero-downtime operations for enterprise clients.

CORE COMPETENCIES

WORK EXPERIENCE

Cloudamize Inc an Atos Company 10/2021 - 05/2025

Senior Infrastructure Advisor (Technical Account Manager)

- Hybrid Cloud Architecture:** Architected complex infrastructure roadmaps for enterprise-scale AI and ML workloads, translating legacy footprints into scalable AWS and Azure architectures.
- Transformation Strategy:** Led 90-day technical assessments for Fortune 500 clients, utilizing automated tools to deliver comprehensive TCO and migration roadmaps.
- Tier 3 Support:** Delivered expert-level technical support for multi-datacenter environments, optimizing sales and delivery workflows to ensure 99.9% project success.

Rackspace Managed Hosting 10/2013 - 10/2021

Senior Systems Reliability Engineer (Customer Success Engineer)

- Bare Metal & Fleet Management:** Audited and reviewed 100+ enterprise environments, implementing best practices for performance, reliability, and security compliance (NIST, PCI, HIPAA).
- Incident Response Lead:** Served as primary Incident Coordinator for major service outages, acting as a trusted advisor to C-suite stakeholders during critical infrastructure failures.
- Advanced Automation:** Developed PowerShell scripts and utilized internal APIs to automate information gathering and proactive resource optimization, reducing manual overhead by 30%.
- Systems Sustainment:** Partnered with engineering teams to design and implement lifecycle improvements, hardening infrastructure against emerging threats while ensuring high availability.

Rackspace Managed Hosting

Senior Systems Engineer (Dedicated Admin III)

- Enterprise Infrastructure:** Planned, designed, and deployed mission-critical systems infrastructure; served as Subject Matter Expert (SME) for high-value AI-adjacent workloads.
- Root Cause Analysis:** Led the diagnosis and resolution of complex, Tier 3 infrastructure problems, ensuring alignment with strict enterprise SLAs.

Rackspace Managed Hosting

Systems Administrator I

- Process Optimization:** Utilized scripting to automate configuration audits and resource allocation for enterprise server clusters.

Christus Health Systems 07/2012 - 10/2013

NOC Incident Coordinator

- Incident Response:** Coordinated major incident responses for enterprise-wide network and application outages, serving as the primary Incident Coordinator.

Medina Valley ISD

02/2009 - 06/2012

Systems & Network Technician

- Administered Cisco CallManager and Unity systems; managed district-wide hardware and software infrastructure.

Tom Green County

03/2006 - 01/2009

Desktop Support Technician

- Provided comprehensive support and preventive maintenance for county-wide systems, ensuring 95% first-contact resolution.

Angelo State University

05/2004 - 03/2006

Desktop Support Technician

- Responded to technical support requests, maintaining optimal performance and data security for campus workstations.

KEY PROJECTS

EDUCATION

Bachelor of Business Administration in MIS

Angelo State University

CERTIFICATIONS

TECHNICAL SKILLS

SRE & Infra: ** Site Reliability Engineering, Hybrid Cloud Architecture, Bare Metal Management, Infrastructure as Code (Terraform), Kubernetes, Automation (Python, Go, PowerShell).

Cloud Ops: ** AWS, Azure, GCP, Cloud Migration Strategy, TCO Analysis, Tier 3 Technical Sustainment.

Operations: ** Incident Management (STAR), Lifecycle Management, Disaster Recovery, Root Cause Analysis.

Security: ** NIST, PCI, HIPAA, HITRUST, Zero Trust Architecture.
