PROFESSIONAL SUMMARY

Staff Site Reliability Engineer & Multi-Cloud Infrastructure Leader with 15+ years of experience in enterprise fleet management, automated orchestration, and high-availability architecture. Expert at maintaining global SaaS availability across AWS, Azure, and GCP. Proven track record of leveraging advanced automation to reduce operational workload by 30%+ in high-stakes environments like Rackspace and Cloudamize.

CORE COMPETENCIES

WORK EXPERIENCE

Cloudamize Inc an Atos Company 10/2021 - 05/2025

Senior Infrastructure Advisor (Technical Account Manager)

- Multi-Cloud Architecture:** Architected complex cloud migration roadmaps, translating legacy datacenter footprints into scalable, secure AWS and Azure environments.
- Automated Discovery:** Led 90-day technical assessments for Fortune 500 clients, utilizing Cloudamize Designer to automate TCO analysis and infrastructure discovery.
- Strategic Leadership:** Acted as the primary technical bridge between global engineering teams and C-suite stakeholders, ensuring 99.9% project success for enterprise-scale deployments.

Rackspace Managed Hosting 10/2013 - 10/2021

Senior Systems Reliability Engineer (Customer Success Engineer)

- Fleet-Scale Automation:** Utilized Rackspace CORE API and advanced scripting to automate configuration audits and environment health checks across 100+ enterprise customer clusters.
- Infrastructure Sustainment:** Audited high-stakes production environments for performance and security compliance (NIST, PCI, HIPAA), implementing best practices for long-term stability.
- Incident Coordinator:** Led technical recovery and root-cause analysis for major service outages, serving as a trusted advisor during critical infrastructure failures.
- Lifecycle Management:** Partnered with engineering teams to design and implement infrastructure improvements, hardening systems against emerging security threats.

Rackspace Managed Hosting

Senior Systems Engineer (Dedicated Admin III)

- Enterprise Infrastructure:** Managed technical support for mission-critical Windows/AD stacks, serving as the SME for high-value enterprise accounts.
- Performance Optimization:** Proposed and implemented system enhancements that significantly improved the reliability and security of dedicated customer environments.

Rackspace Managed Hosting

Systems Administrator I

- Orchestration:** Automated internal information gathering processes, optimizing resource allocation for enterprise clusters.

Christus Health Systems 07/2012 - 10/2013

NOC Systems Operator (Incident Coordinator)

- Outage Management:** Coordinated major incident responses for enterprise-wide network outages, ensuring rapid technical escalation and restoration.

Medina Valley ISD

02/2009 - 06/2012

Systems & Network Technician

- Managed district-wide hardware and software infrastructure, including Cisco network and security systems.

Tom Green County

03/2006 - 01/2009

Desktop Support Technician

- Provided comprehensive support for county-wide systems, achieving a 95% first-contact resolution rate.

Angelo State University

05/2004 - 03/2006

Desktop Support Technician

- Diagnosed and resolved technical issues for university faculty and staff, maintaining campus-wide system security.

KEY PROJECTS

EDUCATION

Bachelor of Business Administration in MIS

Angelo State University

CERTIFICATIONS

TECHNICAL SKILLS

SRE & Platform: ** Fleet Management, Multi-Cloud (AWS, Azure, GCP), Infrastructure as Code (Terraform), Kubernetes, Automation & Orchestration (Python, Go, PowerShell).

Infrastructure: ** Enterprise Systems Administration (Windows, AD, DNS, SQL Server), High-Availability Architecture, Disaster Recovery, Network Design.

Operations: ** Incident Response (STAR), Tier 3 Technical Sustainment, Root Cause Analysis, GTM Strategy.

Compliance: ** NIST, PCI, HIPAA, HITRUST.
